The objects of the Association are both biblical and educational:

- To promote young earth creation among Christians.
- To relate the Bible of the Christian faith to the sciences and disciplines in the educational world.
- To promote research to study creation science.

The statements of belief of the Association are as follows:

- Special Recent Creation rather than a creation by development from one form of life to another.
- Divine design and purpose in nature, as opposed to an unorganized chance development.
- A world-wide, global flood at the time of Noah.
- Christ as God and Man, as our ONLY Substitute and Savior.

The Association is dedicated to bringing to Canadians the amazing scientific evidence against evolution and in favour of Biblical Creation. The Association also sponsors public lectures and discussions throughout BC on the subject of Creation and its relationship to the gospel.

All members will automatically receive mailing news and information as well as notification of upcoming events. Members will receive free shipping on purchases. You will also have access to the free DVD lending library.
